FOR IMMEDIATE RELEASE

Karlín Ventures Invests in FIGS Scrubs

Early Stage Investment Fund Invests in Medical Apparel Company

Los Angeles, CA, June 21, 2013 – Karlín Ventures, an early-stage venture capital fund, has invested in FIGS Scrubs. FIGS Scrubs (www.figsscrubs.com), is revolutionizing the medical apparel industry. FIGS provides a better way for medical professionals to purchase their uniforms and be happier about the product they're receiving. FIGS Scrubs are created with comfort, fit, utility, and durability in mind to be the perfect set of scrubs for all medical professionals. For every set of scrubs sold, FIGS gives a set to a healthcare provider in need.

TX Zhuo, Partner of Karlín Ventures, said, "Heather and Trina have found a \$9B market that is ripe for disruption. Medical professionals have been limited to bland workwear for the past decade and desperately want more fashionable options. Having Crocs as an investment partner will also help FIGS Scrubs make quick inroads into both the physical and online sales channels."

About Karlín Ventures

Karlín Ventures, LLC, is the early stage investment division of Karlín Asset Management, LLC. Karlín Ventures seeks to invest \$100,000 to \$1 million per investment primarily in education technology, eCommerce, digital media, healthcare IT, and financial services, but considers opportunities outside those sectors as well. To entrepreneurs, Karlín Ventures offers speed and responsiveness, the commitment of a partner, and a broad and deep network in the investment and operating communities. The Company maintains offices in Los Angeles, CA. Its phone number is (310) 806-9700. Its website is located at www.karlinvc.com.
